Hi Doug,

Please see Craig's response below. Also, I have attached the Multi-well plan above.

Thanks,

Alyssa Andrews

Subject: Re: SRC Evans Location: Noble Well on location

After the location is built- but in conjunction with drilling- we need to hold the leases that wells production holds up to time of spudding the new HZ wells--

Thx

Craig

Hi Brianne and Craig,

I spoke with Doug from the COGCC after our meeting today and his question is will the Noble well on location be Plugged before construction or after construction of the Evans location?

This will determine whether or not the location is "new" or "amended"

Thanks,

Alyssa Andrews

Alyssa,

I have completed my review of Synergy Resources's SRC Evans PAD Form 2A Oil & Gas Location Assessment (Doc #400726570) and have the following comments.

1) During my review I identified a High Occupancy Building Unit (Ann K. Heiman Elementary School) approximately 3,200 feet north-northwest of the nearest proposed oil and gas well and approximately 3,600 feet north-northwest of the nearest proposed production facility. Therefore, I would like to revise the distances to the nearest High Occupancy Building Unit in the Cultural Distance section from 5,280 to 3,200 feet and 3,600 feet.

2) In the Water Resources section you have identified the estimated depth to groundwater at the proposed Oil & Gas Location to be 12 feet. Due to the likelihood of shallow groundwater at this proposed location I would like to change the Sensitive Area designation from NO to YES.

Please respond to this correspondence by May 28, 2015. If you have any questions, please contact me. Thank you.

Hi Doug,

- 1) I contacted the surveyor to shoot the distance to the school since I'll need new distances for all of the APDs. Let me get back to you on the exact distances.
- 2) Yes, please change.

Thanks,

Alyssa Andrews

Hi Doug and Jason,

For the HOBUE Cultural distance please use:

3,702' to the nearest production facility

3,273' to the nearest well

Jason, I have attached an excel doc with all of the updated distances to wells to the HOBUE. Will you please correct these distances in the APDs for me?

Let me know if you guys need anything else.

Thanks,

Alyssa Andrews
