March 25, 2015

Dear Mr. O'Hare,

This letter is in response to your February 13, 2015 correspondence to the Colorado Oil and Gas Conservation Commission (COGCC). The COGCC understands from your letter that Maralex will apply for a Centralized Exploration and Production (CE&P) Waste Management Facility Permit.

As discussed in the past, the following is required:

- By April 10, 2015. Submit a plan via Form 04, as a follow-up of the Form 27 Site Assessment and Remediation Work Plan to sample the bottom of the pit and remediate any subsurface impact. See the COGCC letter dated January 16, 2015, for details.
- By May 31, 2015. Complete activities proposed and approved in Form 04.
- By July 24, comply with all Permit Requirements as specified in Rule 908 and submit a completed Form 28 CE&P Waste Management Facility Permit.. The February 11, 2015 correspondence from R.K. Frobel & Associates does not satisfy requirements.

Appreciatively,

A handwritten signature in blue ink, which appears to read 'Carlos Lujan', is positioned below the word 'Appreciatively,'.
