200432368	NOISE	Duran, John	<p>Location of Concern: San Pablo Canyon Ranches, Weston, Co. The we'll site is approximately 2 1/2 miles from County Road 31.9, using San Pablo Canyon Road. Property #: 321723-001</p> <p>Heard not felt. from Pump engine &amp; water ring. continous noise. also a truck engine noise 24/7.</p> <p>Noise @ the Dude Well site: The well site originally wasn't too bad. The pump on the Dude Well site used to use a 6 cylinder, 300 horsepower engine. 2+ years ago Pioneer Natural Resource (PNR) added a "water ring" (or so I'm told, not sure if that's the proper name for it) to the well site. The water ring uses a V8 (8 cylinder engine), 350 horsepower engine. Obviously the bigger engine is noisier. After a year and a half addressing this issue with PNR, they put up a sound wall up. The sound wall is basically a Pro-panel (metal) wall. It's supposed to have some sort of insulation to cut back the noise. The sound wall on the Dude Well site is missing quite a bit of its installation. PNR told me that they would put hospital grade mufflers on the bigger engine. This has not happened yet. At night the well site seems to get louder (I'm assuming that @ night the air up here in the mountain is liter, so it makes the sound carry easier &amp; loader).</p> <p>For the most part it is. Morning are very load. Day &amp; afternoon the noise isn't too bad, but @ night it gets really load</p>	05/13/2015
200432368	ROADS	Duran, John	<p>Traffic on Dude Canyon Road has always been a problem. Most of, not all of, PNR employees &amp; their contractors disregard the posted speed limit on Dude Canyon Road. I do have a house that is around 100 to 120 feet from Dude Canyon Road. Once again most of, not all of, PNR employees and their contractors won't slow down going by my house. At the end of the day some of them will drive even faster. I have told PNR about this problem. Their response was to get a truck # or a license plate #. I have seen a few truck #, but not too many. And trying to run down a truck to get a license plate number is unsafe and impractical. But PNR told me it was my responsibility to get them this info &amp; until I do there's nothing that they could do.</p>	05/13/2015

## **ACTION REQUIRED**

**ANY ACTION REQUIRED** items listed on this report indicate that the oil and gas facility or the oil and gas operations listed on the report may be in violation of the rules and regulations of the Colorado Oil and Conservation Commission (“COGCC”) and corrective action is required.

There is reasonable cause to believe that a violation of the Oil and Gas Conservation Act, or of any rule, regulation, or order of the Commission, or of any permit issued by the Commission, has occurred. The Operator’s compliance with this Inspection Report is required to resolve these alleged violations. This document requires the Operator to timely respond to the COGCC and to comply with directives as listed by the **Corrective Action Deadline Date**. Failure to do so will result in the issuance of a Notice of Alleged Violation and initiation of enforcement proceedings in which COGCC will seek monetary penalties for the alleged violations pursuant to § 34-60-121, C.R.S. and Rule 523, COGCC Rules of Practice and Procedure, 2 CCR 404-1. (Please note that the COGCC's penalty authority was recently increased to a maximum of \$15,000 per day and penalties are no longer capped at a maximum of \$10,000 per violation.)
