

Photo 1. View of northern portion of project area from northeastern corner facing westward. Vegetation is largely ruderal weeds such as field bindweed (*Convolvulus arvensis*), flixweed (*Descarainia sophia*), and cranesbill (*Erodium cicutarium*). These are consistent with surrounding weedy pasture vegetation.

Photo 2. View of rig anchor cable in southeastern portion of project are that needs to be removed.

Photo 3. View of junk and debris in eastern portion of project area.

Photo 4. View of barrels, tire, and other junk and debris in eastern portion of project area.
