RE: Wildlife Comment, "Carlson 15-D Pad", Document No. 400839059

Dear Mr. Annable:

Colorado Parks and Wildlife has been notified that your application for the above mentioned Form 2a that oil and gas facilities will be located in a sensitive wildlife habitat area. Oil and gas facilities from the Carlson 15-D Pad will be located in the NE4NE4 of Section 15, T5N, R65W, Weld County. A wildlife consult with Colorado Parks and Wildlife was triggered due to the intersection of a 0.5 mile buffer zone around a mapped bald eagle nest in adjoining Section 14. Our local field staff has visited the proposed site and has confirmed that the mapped nest has been destroyed and that there are no sensitive wildlife issues that would prompt the need for a wildlife recommendation.

Thank you again for your attention to this matter. We appreciate Bayswater Exploration and Production LLC's interest in protecting sensitive wildlife habitat. Please contact me at 970-472-4315 or Tom Schreiner at 303-291-7327 if you have any questions.

Sincerely,

Mark Leslie  
Area Wildlife Manager
