**Form 2A COAs:**

Group	User	Comment	Date
Agency	yokleyb	Operator must implement best management practices to contain any unintentional release of fluids.	03/31/2010
Agency	yokleyb	Location is in a sensitive area because of close proximity to surface water, therefore, operator must ensure 110 percent secondary containment for any volume of fluids contained at well site during drilling and completion operations. If fluids are conveyed via pipeline, operator must implement best management practices to contain any unintentional release of fluids.	03/31/2010
Agency	yokleyb	Location may be in a sensitive area due to shallow groundwater; therefore either a lined drilling pit or a closed loop system must be used.	03/31/2010
