**Inspector Comment:**

The following Actions Required outlined on the previous field inspection doc #674601361 performed on 1/12/15 have been satisfactorily completed: Equipment on site has been re-painted; A written plan has been submitted to the COGCC regarding compliance to rule 906.d.2 outlining future changes to be made at the Tiffany #1 well site to aid in preventing future spills. All of the Actions Required outlined on the (original status AV) field inspection doc #674601260 performed on 11/20/2014 have been completed to meet COGCC rules.

**COGCC Comments**

Comment	User	Date
As outlined on the previous field inspection doc #674601361 performed on 01/12/2015: This follow up inspection was conducted on 1/12/15. The COGCC received a form 42 (COGCC Doc #400759059) on 12/24/2014 from Dugan Production indicating that the operator response required to the alleged violations and corrective actions required as outlined on field inspection #674601260 performed on 11/20/2014 had been completed. Observations made during this follow up inspection confirm satisfactory completion of operator actions required by the deadlines/ dates outlined. It is understood that several action required items still require future completion due to seasonal limitations, and the original corrective action dates have not been changed. Therefore, the overall status of this follow up inspection is Action Required and the COGCC requests an additional form 42 once the remaining actions required are completed. Details are outlined in this report. Follow up inspection photos are uploaded and can be accessed via the link at end of report.	maclarej	06/24/2015
All outstanding Actions Required have been completed to meet COGCC Rules.	maclarej	06/24/2015
