RE: Application for Permit to Drill - Proposed Wellbore Spacing Unit  
Synergy Resources Corporation  
**Ivey I-14-23HC**  
SHL: 520' FSL 2,064' FEL (SW/4 SE/4)  
Sec. 11 T1S R68W  
BHL: ±2,600' FNL ±2,335' FEL (SW/4 NE/4)  
Sec. 23 T1S R68W  
Adams County, Colorado  
Surface Ownership: Fee  
Mineral Lease: Fee

Dear Mr. Lepore:

Synergy Resources Corporation (Synergy) intends to permit, drill and operate the above referenced Codell formation Horizontal Well. As defined by Colorado Oil and Gas Conservation Commission (COGCC) Rule 318A.a.(4)D., Synergy proposes the following wellbore spacing unit:

**Description of the Wellbore Orientation and Wellbore Spacing Unit:** The proposed horizontal wellbore paths will run north to south. The Proposed Spacing Unit is as follows:

Well Name	Proposed Spacing Unit	Acreage
Ivey I-14-23HC	T1S R68W Sec. 14: NENW, NWNE, SENW, SWNE, NESW, NWSE, SESW, SWSE; T1S R68W Sec. 23: NENW, NWNE, SENW, SWNE, NESW, NWSE	560

**Description of Wellbore Orientation & Proposed Surface, Bottom, and Productive Interval Locations and Target Formation:**

The proposed wellbore will run north to south, beginning in Sec. 11 T1S R68W and ending in Sec. 23 T1S R68W. Please see the enclosed PSU. The proposed location is as follows:

Well Name	Surface Hole	Productive Interval	Bottom Hole	Formation
Ivey I-14-23HC	520' FSL 2,064' FEL	465' FNL 2,335' FEL	2,600' FNL 2,335' FEL	Codell

Synergy requests the Director approve the proposed wellbore spacing unit.

This letter hereby certifies that Synergy complied with Rule 318A.e.(5) on December 5, 2014 for the above referenced oil and gas well. All mineral interest owners were sent letters notifying them of the proposed spacing unit. The Mineral Interest Owner letters were sent by Bayswater Exploration & Production who was the original operator of the proposed well. Synergy bought the prospect and no changes were made to either the surface, landing point, or bottom-hole locations since the Mineral Interest owners were notified. No disputes were received.
