due to busy schedule next 2 months. Also property for sale. Re-call in
May 2003. Possible retest at that time.

Hydrogen sulfide (HACH Test Kit Field)

Methane Result in mg/L

Lab Analysis

San Juan Basin Health-State of Colorado Health Dept Test

Call owner in May at 10 months from completion date. One year posttest due by 11/2003. Will recontact owners
after their "busy time"

COMMENTS

Four Corners Geoscience conducted onsite field chemistries, observation of physical characteristics of water while pumping
system to receive a fresh aquifer sample. Water samples were collected and delivered to EPA quality assured lab for analysis.
Water samples for bacterial analysis were collected and delivered to San Juan Basin Health in Durango, CO.
Samples for headspace gas analysis were taken to FCG lab per USGS standard and methods for these analysis.
Four Corners Geoscience is not liable for the results of these analysis and recommends referral to specialists in the field or
water treatment.
All methods are conducted in accordance with the requirements for this groundwater monitoring program in La Plata Colorado per
Colorado Oil and Gas Conservation Commission Order # 112-156 and 112-157 established in July 2000.
