Subject: State Reportable Release

Good Morning Everyone,

We had a State Reportable Release at the location listed below. While removing a partially buried water vessel during site abandonment activities, groundwater was encountered. A groundwater sample was collected on July 1, 2015. Results received on July 2, 2015 indicate that groundwater impacts are present. More information will be provided in a forthcoming COGCC Form 19 Release Report. As always, please do not hesitate to contact me with any questions. Thank you,
