If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

18. Date of work June 27, 1988

\* Must be accompanied by a cement verification report.

Flowline leak was discovered by our pumper at 8:30 a.m. He shut the well in notified Hondo Oil in Casper. Discharge amounted to 10 bbls "O" Sand Oil and 30 to 40 bbl produced water. Reported to John McKee at 10:30 a.m. with Colorado Oil & Gas Commission at 1-303-894-2100. Obtained permission at that time to burn due to tall grass. Called Bill Smith our pumper called the local fire department. They granted permission to burn spill. Spill area was burned and residue was scaped and fresh dirt hauled in. The spill did not get in or reach any water. Cleanup completed 6-27-88.

19. I hereby certify that the foregoing is true and correct
