7 FEBRUARY 2003

FROM: PAUL OLDAKER

The email copied below was sent on 26 December 2002. Huber personnel instructed me to wait on this work until XTO took over. So here are the answers to your email.

1. As far as I know there is one well at the Newman's residence.
2. IID 983 and IID 984- Ellis- 107 degrees, 44 minutes, 33.3 second west; 37 degrees, 13 minutes, 39.0 seconds north. These are in the current database.
3. IID 985- Leeder- 107 degrees, 44 minutes, 40.7 seconds west; 37 degrees, 13 minutes, 50.9 seconds north. These are in the current database.
4. IID 676- Craft Cistern- 107 degrees, 41 minutes, 26 seconds west; 37 degrees, 17 minutes, 21 seconds north. I took the coordinates on 31 January 2003.
5. IID 696- Swanson- 107 degrees, 41 minutes, 26 seconds west; 37 degrees, 17 minutes, 26 seconds north. I took the coordinates on 31 January 2003.

I am puzzled. You were taking the data and coordinates from my yearly submittals of the database. Is there a new system where you are entering data? Do you still want the yearly submittals?

Re: Message from Internet

Happy Day After Xmas Paul & Tom,

We are entering results from Huber samples in our database, and have some more questions (in addition to the list of wells & questions I sent you 12/05/02):

Do you know whether the "Mr & Mrs Newman" well sampled for Huber on 6/20/00 is the same as the "Dan and Sheila Newman" well previously sampled by the BLM in August 1995? They both have the 8692 CR 502 address, and we just want to make sure there is only 1 well at this location

We also need Lat/Longs for the following wells:

IID 983 - Jim Ellis (MW-7), 3661 CR 502, sampled 10/25/02  
IID 984 - Jim Ellis (MW-7-North), 3661 CR 502, sampled 5/25/00 IID 985 - Matt Leeder, 33399 US Hwy 160E, sampled 10/25/02 IID 676 - Craft Cistern, sampled 5/15/00 IID 696 - Mr. & Mrs. Swanson, 249 Bellflower, sampled 5/15/00

Do you have these?

The IID numbers are COGCC's database identifiers.

Thanks & Happy New Year
