My Commission Expires 6/14/17

Robert Little

Notary Public

**OIL AND GAS CONSERVATION COMMISSION OF THE STATE OF COLORADO**

**PUBLIC NOTICE OF PROPOSED UNDERGROUND INJECTION CONTROL PERMIT**

PURPOSE OF PUBLIC NOTICE:

The purpose of this notice is to solicit public comment on the Bevo #4-36 SWD disposal well, a Class II injection permit submitted by EOG Resources Inc. The Bevo #4-36 SWD disposal well was drilled at a location 2,009 feet from north line and 1,809 feet from west line (SENW) of Section 36, Township 12 North, Range 63 West, 6th P.M., Weld County, Colorado. EOG Resources Inc proposes to deepen the Bevo #4-36 SWD from 8,710 ft to 9,710ft in order to complete their project.

BACKGROUND

Class II injection wells are permitted and regulated in such a manner as to prevent the contamination of underground sources of drinking water and to ensure fluid emplacement and confinement within the permitted injection zones. Class II injection wells are permitted to inject waste generated from oil and gas exploratory and production operations. EOG Resources Inc proposes to inject these fluids into the Lyons Formation in the Bevo #4-36 well through a cased-hole completion at depths of approximately 9,390 to 9,460 feet.

Public comments are encouraged and will be accepted, in writing at the Commission for a period of thirty (30) days after publication of this notice. If any data, information, or arguments submitted during the public comment period appear to raise substantial questions concerning proposed injection well permit, the Director may request that the Commission hold a hearing on the matter.

Additional information on the operation of the proposed injection well may be obtained at the Commission office.
