| COGCC Comments | | |
|--|--------|------------|
| Comment | User | Date |
| Spotted Knapweed, Thistle and Chamomile growing on access road right of way are State and County B List Noxious weeds. Control weeds to manage infestation from expanding in interim reclamation areas and migrating from road way into adjacent private and public lands. Control flowering plant heads to remove, or spray the flower heads before seeds become viable. Short corrective action window because of imminent seed maturity (thistle seed at culvert is already mature). Consult Garfield County Vegetation manager for appropriate control measures. Recommend coordinating with weed control on Location #s 334747 & 334572 .Control the infestation by the CA date of 7/31/15. | colbyl | 07/27/2015 |

ACTION REQUIRED

ANY ACTION REQUIRED items listed on this report indicate that the oil and gas facility or the oil and gas operations listed on the report may be in violation of the rules and regulations of the Colorado Oil and Conservation Commission (“COGCC”) and corrective action is required.

There is reasonable cause to believe that a violation of the Oil and Gas Conservation Act, or of any rule, regulation, or order of the Commission, or of any permit issued by the Commission, has occurred. The Operator’s compliance with this Inspection Report is required to resolve these alleged violations. This document requires the Operator to timely respond to the COGCC and to comply with directives as listed by the **Corrective Action Deadline Date**. Failure to do so will result in the issuance of a Notice of Alleged Violation and initiation of enforcement proceedings in which COGCC will seek monetary penalties for the alleged violations pursuant to § 34-60-121, C.R.S. and Rule 523, COGCC Rules of Practice and Procedure, 2 CCR 404-1. (Please note that the COGCC's penalty authority was recently increased to a maximum of \$15,000 per day and penalties are no longer capped at a maximum of \$10,000 per violation.)
