Re: Request for Exception to Rule 305.a. Pre-Application Notifications  
Howard 3C-28HZ Location (Doc # 400862474)  
Township 1 North, Range 67 West  
Section 28: SESW  
Weld County, Colorado

Dear Mr. Lepore:

Per Rule 604.b.1.A of the Colorado Oil and Gas Conservation Commission's Rules and Regulations, Kerr-McGee Oil & Gas Onshore LP's existing Howard 3C-28HZ location is now within the Designated Setback zone as a result of Rule 604.a.

This location is being amended due to the additional surface disturbance outside of the original approved Form 2A. In order to start reclamation as soon as possible, Kerr-McGee respectfully requests to waive Rule 305.a.'s pre-application notification process. Rule 305.a states "For Oil and Gas Locations proposed within an Urban Mitigation Area or within the Buffer Zone Setback, an Operator shall provide a "Notice of Intent to Conduct Oil and Gas Operations" to the persons specified herein not less than thirty (30) days prior to submitting a Form 2A, Oil and Gas Location Assessment, to the Director."

Kerr-McGee's land department has been in contact with the building unit owners within 1000' of this location to discuss the permitting activities. The owners are aware of the extension of our location boundaries and reclamation plans.

Very truly yours,

Kerr-McGee Oil & Gas Onshore LP
