Hi Melissa,

Please see my responses below in red. Please let me know if you have any additional questions.

Thanks!

Kelsi

Hi Kelsi

The COGCC has completed the technical review of the above-referenced Form 42 and identified the following inconsistencies,

1) The Public Road to the north of the location appears closer than 1 mile. Please verify distance. I have contacted our field team to verify this distance- I will let you know as soon as I hear back from them!

Also, with your concurrence, the COGCC can make the following changes. Please go ahead and make all changes you've listed below (#1-3).

1) The COGCC can change the Estimated Depth to Groundwater to 21 feet based on DWR Permit #6601

2) The COGCC can change Sensitive Area to YES.

3) The COGCC can change Basis Statement to read "Receipt #3636442, Permit #6601".

In addition, the following Conditions of Approval have been applied to the Form 2A. **We accept both COAs.**

1) Location lies within proximity of a surface water drainage. Operator shall use tertiary containment along the cross- and down-gradient perimeters of the edge of disturbance.

2) Operator shall provide notice to COGCC 48 hours prior to commencing construction of this Oil and Gas Location via Form 42.

Thank You

Melissa
