Dear Mr. Lepore:

Ward Petroleum Corporation (Ward) respectfully requests that the Director grant an exception location to Colorado Oil and Gas Conservation Commission (COGCC) Rule 318A.a. and Rule 318A(c) for the above referenced well. The planned location was agreed upon by Ward who is the surface owner and applicant. As an Oil and Gas operator, Ward is aware of COGCC Rule 318A.a and Rule 318A(c), and chose this location due to topography and limited options.

COGCC Rule 318.A.a stipulates that a Greater Wattenberg Area (GWA) well surface location must be within a 400' by 400' drilling window centered at the center of each quarter-quarter section, or inside a 800' by 800' drilling window centered at the center of each quarter section. The above referenced well falls outside of these drilling windows.

COGCC Rule 318A.c. stipulates that a GWA well surface location shall not be less than 50' from an existing well. As planned, this surface location is greater than 50' from an existing well.

Ward requests the Director approve the proposed exception location. Ward, the surface owner and applicant, acknowledges and agrees with the staked surface location of the well.
