Subject: State Reportable Release

Good Afternoon All,

We had a State Reportable Release at the location listed below due to volume of soil removed. While re-routing flow lines at the location, historic impacts were discovered. It does not appear that the impacts are associated with any active equipment on location. Excavation activities are currently on-going. A Form 19 will be submitted to the COGCC. Please let me know if you have any questions. Thank you,

LDS-63N68W24SWSE
Location ID: 336287
SWSE 24-3N-68W
