Chris,

I hope all is well. This email is to respond to the proposed Work Plan submitted via Form 27 and its attached letter dated June 25, 2015 to address the Northeast Terraced Area, Spill #2213637, REM #70. The proposed Work Plan has not been approved.

The Form 27, Stantec's letter, and COGCC response have been uploaded to the COGCC database as document #2315351 (see attached).

COGCC expects to receive an updated remediation work plan Form 27 that addresses the soil impact in the terraced area within 3 months of the date of this email (Sept 02, 2015). Please call if you would like to discuss.

Thanks,
Carlos

Carlos,

FYI...I will be granted an account/access to the Colorado E Form website on behalf of Chevron (the operator) for the Wilson Creek site early next week. I don't anticipate any problems and will let you know when the process is complete.

Thanks,

Chris

Subject: Re: COGCC 1993 Rules

Chris,

Do you have access to the old Rules? It just crossed my mind that operators, consultants or the general public may not have access to the old Rules. There is a folder in the COGCC intranet where old Rules have been saved (scanned documents). I will review to see what Rules are available and I'll let you know.

Nice talking to you,

Carlos
