Comment:

The ECGS 6-18 WP-D011-2 well was originally completed as a Dakota D gas storage well on October 10, 2012. A a 11 foot perforated interval was opened in the Dakota D Sandstone. The present well work opened an additional 10 foot of perforations in the Dakota D. No other changes in the well bore configuration were done during this re-work operation.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
