COMMENTS

There are no water sources permitted with the Colorado Division of Water Resources located within 0.5 miles of the proposed production well.
 However, there is one (1) unpermitted windmill operated water well located approximately 2,282 feet south of the proposed production well in the NWSE quarter/quarter of section 14. Nighthawk sent the landowner an access agreement on August 5, 2015 to obtain a water sample.
 It was confirmed with the landowner on 8/26/2015 that the windmill is inoperable. The windmill has not been in use for 11 years. Nighthawk is requesting relief from sampling water sources for COGCC Rule 609 compliance.
