Jake,

Once an e-form is approved, it is saved in the database. I don't have access to make changes at that point. I would have to send a request to the group in charge of the database. It may be easier to upload this thread of emails and link it to the e-form 19.

Carlos

Carlos,

Please see the email below. Is there any way we can amend this data to make each page of the form state that "500 cubic yards of material were excavated?"

Jake

Jake,

This is probably not a big deal but page one of the form identifies 500 cubic feet of material excavated and page two lists 500 cubic yards. I believe the cubic yard information is correct.

Craig,

The attached Form 19 (Notice of Completion) was submitted to the COGCC for official closure of the PBV Removal Project at the Parachute Creek 1 pad location. Please review and let me know if you have any questions.

Thanks

Jake
