To: John Noto - DNR <john.noto@state.co.us>, "Andrews - DNR, Doug" <doug.andrews@state.co.us>

John,

Per your request I am ready to submit a Form 2A for Facility #309984 that NGL Water Solutions DJ, LLC has recently purchased from Synergy Resources.

I have also submitted a Form 10, Doc # 400894238 to change the Facility 309984 to NGL's name. I have asked Martha Ramos if she could expedite the Form 10 – but she has not responded.

Once that was done I was planning to then submit a Sundry for NGL to change the name of the facility to be more in line with their naming preferences.

So my question is – do you want me to wait to submit the Form 2A until the Form 10 and Form 4 are approved?

Or should I just submit the Form 2A – providing it will let me submit it even though the Facility in question is still in Synergy's name?

You had requested I submit the Form 2A prior to the Well and Pad permit is submitted for NGL – the NGL Apollo 11, Forms 2 & 2A in process.

Please advise!

Thanks very much

Correction

John & Doug,

Attached is a preliminary 604.b letter for your review – will this cover the issue?

I have notified the surveyors to create a Survey Package as if I were permitting a new facility and will submit the 2A as soon as possible.

Thanks again for working with us on this solution.

Paul,

Sorry for the delay in getting back to you on this. I spoke with John Noto about it this morning and you can go ahead and submit that Amended Form 2A as soon as you are ready. We will conduct our technical review but will likely wait to Final Approve it until the Form 10 is approved as well. Additionally, if the Form 4 Sundry is solely for changing the name of the location, the Amended Form 2A will take care of that. Just name it whatever NGL wants to use. This is another reason we will wait to Final Approve the Amended 2A until after the Form 10 has gone through.

All,

As requested we have moved the well 12' North in order to put the wooden shack (which is unpermitted and un-occupied) to the SE 200' from the WH.

Attached updates for the NGL Apollo 11:

### **Form 2 & 2A updates:**

1. Updated well Plat w/ Footages and Lat/Lon.
  - a. Elevation remains 4663'
  - b. Footage at Surface: 1446' FNL, 699' FEL.
  - c. Lat. 40.489735, Lon. -104.47285
  - d. Distance from Completed Portion of Wellbore to Nearest Wellbore Permitted or Completed in the same formation: 237' to the recently PA - Synergy Disposal 15-18 I (API 05-123-25694)
  - e. Distance to nearest permitted or existing wellbore penetrating objective formation: 237'.
2. Updated Location Drawing w/ Cultural Distances.
  - a. Nearest Building = 200'
  - b. Nearest Building Unit = 742'

- c. High Occupancy Building Unit = 5280'
- d. Designated Outside Activity Area = 5280'
- e. Nearest Public Road = 537'
- f. Nearest Above Ground Utility = 483'
- g. Nearest Railroad = 5280'
- h. Nearest Property Line = 166'

**Form 2A only updates:**

Water Resources:

Distance to nearest downgradient surface water feature = Pond 2724' NE

Water well: aprx 200' SE

This should take care of everything.

Please let me know if you require anything else.

Thanks very much!

Paul

Jason,  
Some of this updated information also pertains to the Form 2 APD. Not sure why he didn't respond to the email I sent him yesterday about this well move.

Doug,

I just submitted a Form 2A for Facility 309984, Doc #400891158, and have renamed it "NGL Apollo Facility".

Please let me know if you require any other information for this permit.

Thanks very much!
