Spill report taken by:

NEIDEL, KRIS

Spill/Release Point ID:

443258

SPILL/RELEASE REPORT (INITIAL)

This form is to be submitted by the party responsible for the oil and gas spill or release. Any spill or release which may impact waters of the State must be reported as soon as practicable; any spill over 20 bbls must be reported within 24 hours and all spills over five bbls must be reported within ten days. Submit a Site Investigation and Remediation Workplan (Form 27) when requested by the Director.

General Comments

<u>User Group</u>	<u>Comment</u>	<u>Comment Date</u>
Environmental	Operator should include other parties notified in the supplemental report, see rule 906.b(2) and 906.b(3).	9/21/2015 12:51:25 PM
Environmental	Staff discussed cuttings management with the contract drill engineer on location and over the phone with company representative, John Thomas. It is believed this issue will not occur again. Since the cuttings that were spilled in this report are going to be characterized independently of other cuttings it is acceptable to submit that analytical upon request for closure of this spill. If cuttings analytical should demonstrate contamination greater than COGCC table 910-1, then an Form 27 investigation should be submitted outlining remediation of the affected area.	9/21/2015 12:40:46 PM
