Doug,

The Surface Owner for the Silverback 36-A location asked Extraction to revise the surface disturbance area to not exceed 5 acres during drilling operations. Please find attached the revised Location Drawing reflecting the disturbance area changes.

Can you update the following under Construction on the Form 2A:

Size of disturbed area during construction in acres: 5.00 acres

Size of location after interim reclamation in acres: 3.37 acres

If you have any questions or concerns, please feel free to contact me. As always, thank you for your help.

Respectfully,

Jennifer Grosshans
