#### COMMENTS:

Well is approximately 1,200 ft. from nearest sales pipeline. Construction cost estimate is \$60,000.00. 30 day production rate = 49 MCFD; 7 day production rate = 42 MCFD. Well is currently shut-in, waiting on flare approval. Current pipeline is 2+ miles into Sterling System. We're working with Sterling to release well then we will begin our negotiating with Whiting to take the gas production.
