**RE: COGCC Rule 318A.e.: Proposed Wellbore Spacing Unit
Afton 12-16H-3, E/2 of E/2 of Sec. 12, T1S-R68W & W/2 of W/2 Sec. 7, T1S-R67W, Weld County,
Colorado**

Dear Mr. Lepore:

Mendell Finisterre II, LLC (Mendell) is planning to drill the above referenced well in accordance with the provisions set out in COGCC Rule 318A.e. Mendell's proposed wellbore spacing unit consists of 320 acres more or less.

Mendell is not the only owner within the proposed wellbore spacing unit and on 8/25/15 sent PSU Notifications & Waivers to Bill Barrett Corp., Drillers Energy Search & Martin Oil Company regarding this spacing unit, as required by COGCC Rule 318A.e.(6). As of this date we have not received any objections to this proposed PSU.

Attached is the Proposed Spacing Unit Plat to assist in your review and approval of the Mendell proposed Sundry Form 4 to change the HZ footages for the Afton 12-16H-3, API# 05-001-09790. Mendell respectfully requests the COGCC review the enclosed information and approve the proposed PSU and Sundry.

Respectfully,

Paul Gottlob
Regulatory & Engineering Technician
Integrated Petroleum Technologies, Inc
Consultants to Mendell Finisterre II, LLC
