<input type="checkbox"/> Gross Interval Change	<input type="checkbox"/> Rule 502 variance requested. Must provide detailed info regarding request.	
<input type="checkbox"/> Other _____	<input type="checkbox"/> Status Update/Change of Remediation Plans for Spills and Releases	

COMMENTS:

Chevron is seeking Continued Temporarily Abandoned Status for the subject well and is providing this description of future plans for utilization of the well per COGCC request (MIT approval COA). Chevron's current intentions are to complete SKR-598-35-AV-10 well in May 2019. Current gas prices do not allow for an economic completion. Added costs of fully abandoning the wellbores and then re-entry to complete the wells in 2019 would worsen the economics and delay completions beyond 2019. The wellbore is cased and CBL's have been run proving good cement. Last MIT was on 05/28/2015 and met the requirements for well integrity. No production equipment has yet been installed.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

--

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____
