RE: **Operator Certification – Rule 306.e.(5)
Leffler FE Pad**

**Leffler FE 20-019HN-
NENE Section 21 Township 6N Range 66W
Weld County, CO**

Dear Director:

Great Western Operating Company, LLC hereby certifies to the Director that compliance to Rule 306.e.(5) has been accomplished.

1. The pre-application notification, Rule 305.a.(2) was received by all building unit owners.
2. The OGLA notification, Rule 305.c.(1) was sent:09/01/2015
3. The Buffer Zone notification, Rule 305.c.(2) was sent:09/01/2015
4. Comments provided to the COGCC, LGD or Operator: Comments from the LGD have been addressed.
 - LGD Comment: The City of Greely notes that the proposed well and appurtenances, while not currently in city limits, are proposed within the City's adopted Long-Range Expected Growth Area. Urban- scale development is anticipated within all areas of the Long-Range Expected Growth Area, supported by sewer and water utility planning and other long-term strategic capital investment by the city. In that context, they city anticipates the intersection of Highway 392 and County Road 31 (future 59th Avenue), being the intersection of two major roads, would likely be the location for future major commercial activity node. As such, the proposed location, only 500' from the intersection, would create a major constraint on future efforts to best utilize this corner in an urban context. We respectfully suggest that the land owner and the operator consider moving the site more internally to the site, and maintain a larger area in the corner for a viable future development site.
5. Meetings requested and documentation: None to date

Great Western Operating Company, LLC, respectfully certifies that we have complied with Rule 306.e.

Respectfully,

Allison Linz
