Melissa:

Holy cow... I see what you are talking about.

Not sure where that data bit came from.

However, no, this road does not nor has it ever existed.

Please see attached as to what is currently on Mr. Robertson's land.

As to any improvements within 500' of either well, excepting the trail to his pivot, there are none.

Sorry, it took so long to get back.

Let me know if you need anything else.

AND

Thank you for your patience with me.
