## NOTICE OF ORDERS OF THE BLM AUTHORIZED OFFICER

Mr. Tom Rogers,

### **Corrective Action:** POC-I LLC must complete one of the following options:

- (b) Prove the well is capable of producing in paying quantities by submitting an up-to-date MIT and well test in accordance with the requirements of this office. The production test must be run for a minimum of 48 consecutive hours after the well has been cleaned up and a stabilized flow rate achieved. Results should be recorded with a chart for analysis. Using the stable rate sustained during testing and a reasonable gas price for the area, revenues should be calculated and lease minimum royalties and day-to-day operating expenses subtracted from revenues. Assume operating expenses, but provide a breakdown of your economic analysis for our review. All information should be submitted with a Subsequent Sundry Notice so we can evaluate the justification. If the well is not capable of production in paying quantities, you may be ordered to plug the well.
- (c) Submit a Notice of Intent sundry with procedure to permanently plug the well.

In accordance with 43 CFR 3163.1(a), you must comply with the corrective action stated above no later than February 1, 2016. If you fail to comply within the time frame specified, you will be subject to further enforcement action as may be deemed necessary.
