Operator Comments:

Noble will either take all cuttings to a certified disposal facility or treat with microbial remediation on location. If we use microbial remediation on location, per Noble conversation with COGCC Environmental staff, Noble will submit a Form 27 stating that all OBM will be treated using microbial treatment on the approved 2A location. The cuttings will be sampled and submitted to a certified lab, once cuttings are below COGCC Table 910-1, the cuttings will either be spread on the COGCC location or buried in a cuttings trench.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
