Helen,

It was determined that the pit on this location is Facility number 116724. The COGCC database has been updated to relate this pit with location 313011 and well 081-06668, the status of the pit has been updated to CL (closed).

Project number 9368 was created to document the operator's compliance with the pit investigation.

Based on review of information provided on Remediation number 9368 it appears that No Further Action is required at this time. Should conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards, further investigation and/or remediation activities may be required at the site.

Request for backfill of the pit (facility 116724) is approved.

Any further use of this pit (facility 116724) is PROHIBITED, pit should be backfilled as soon as possible.

Please respond to this email with confirmation that the pit will not be used henceforth.

Thank You,

Kris Neidel
