Subject: State Reportable Release

Good Morning,

We had a State Reportable Release at the location listed below. While removing a partially buried produced water vessel at the location, shallow groundwater was encountered. A sample of the shallow groundwater was collected on November 25, 2015. Laboratory analytical results received on November 30, 2015 indicate that the shallow groundwater sample exceeds CGWQS standards. Further information will be provided in a forthcoming Form 19 Initial Release Report. Thank you,

Lorenz-63N66W 30SWSW
Location ID: 318057
