The surface locations of Extraction's proposed wells have been staked outside of the Colorado Oil & Gas Conservation Commission (COGCC) Rule 318A.a. Greater Wattenberg Area (GWA) Drilling Window and are being permitted as exception locations. Extraction's proposed wells are located approximately 296 feet east of the SENE Drilling Window. These wells are being proposed outside of the Drilling Window due to an agreed upon location in the Surface Damage Agreement with the surface owner. Extraction has obtained written permission from the surface owner by way of Surface Damage Agreement.

Extraction respectfully requests the COGCC to review the enclosed information and approve the requested exception location request and Application for Permit to Drill for the wells on the subject pad.

Respectfully,
