Attn: Denise Arthur

Dear Ms. Arthur,

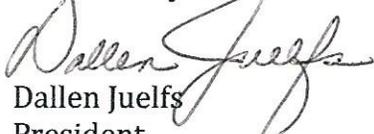

I received the enclosed information over a year ago but was unable to proceed on the Myrtle Rossen #1 API #075-08553 due to a battle with cancer. At the present time I am pleased to say I am cancer free and would like to get this matter taken care of.

The inspection report was performed over 10 years ago. I visited the location a few weeks ago and feel there is now adequate vegetation. Over the past ten years this problem has taken care of itself and is continuing to improve naturally.

I would like to request that another inspection be performed. If you feel there is a need for further action please contact me with guidance.

The location was abandoned by my father over 25 years ago. Stanco Petroleum, Inc. has not operated wells since 1998 and I am trying to get bonding released at this time.

Thanks for your assistance,

Dallen Juelfs
President
