Jason,

The approved Form 27 for the Simpson 1 is attached for your records. Remediation Project #9384 has been assigned. Please reference this Remediation Project number on future correspondence.

Please also send me the data collected to date - either with your next report, or now, for the file. I have received no data for this historical spill to date and I won't be able to review an NFA request with data from just the proposed one monitoring well.

Thank you and let me know if you have any questions.
