RE: **SECOND REQUEST**  
**NAME CHANGE PROCEDURES**  
**LAWRENCE L. AND/OR WANDA HAUG - OPERATOR NO. 38560**  
**FOR KERN #43-33 WELL - NESE SECTION 38-T12N-R62W**

Dear Mrs. Madden:

The Colorado Oil And Gas Conservation Commission (COGCC) requires the following criteria be met in order to have the Kern #43-33 well transferred from Lawrence L. and Wanda Haug to Wanda Madden. COGCC will need a Form 1 (Registration For Oil & Gas Operations), Form 1A (Designation of Agent), and a Form 10 (Certificate of Clearance and/or Change of Operator) completed and signed by you. Additionally, the COGCC will need a Name Change Rider from Underwriters Indemnity Company for Plugging Bond Number B03132. The bond rider can be obtained from your Insurance Agent and/or whom ever you have been making the premium payments too. Once the COGCC receives and approves these documents the Kern #43-33 well can be officially transferred to your name as the operator of record.

Enclosed please find the Registration For Oil And Gas Operations Form 1, Designation of Agent Form 1A, and Change of Operator Form 10 to be signed, and returned along with the Name Change Rider for Individual Plugging Bond Number B03132.

Should you have any questions - please call me at 303- 894-2100 extension 109.

Sincerely,

*Marsha L. Choury*

Marsha:

FYI – a NOAV was issued to Wanda Haug on 5/28/03 for oily soils related to a spill at the Kern 43-33. A Form 27 – Site Investigation and Remediation Workplan was required to be submitted by 6/30/03. The Form 27 has not yet been submitted and therefore the NOAV has not been resolved!

COGCC staff has been very patient with Ms. Haug in returning her lease to production and submitting past due production records. Staff has also helped to facilitate the transfer of the Peters wells to Walsh Production.

Please relay this information to Ms. Haug and if possible, do not release the subject individual bonds until she has submitted a Form 27 for the Kern lease.
