Comments:

Per Field Inspection Form [Document # 682500121] -- Diamond will begin final reclamation of the Pachner 1-31 site on or before March 31, 2016. Per Dave Peterson's discussion with Margaret Ash, the following is an outline of the reclamation plan.

- 1) In January 2016 a representative of Diamond will meet with Rob Pachner [surface owner] and a reclamation expert to discuss and hopefully finalize a plan of reclamation. Note: The surface owner has ordered Diamond to stay off the site to let the previous reclamation take effect.
- 2) Assuming Mr. Pachner is agreeable to a new reclamation plan, Diamond working with the reclamation expert will present to the COGCC a final plan of reclamation.
- 3) The first step of the reclamation will be the removal of any existing weed stalks on the site and the application of a weed control agent.
- 4) When the growing season begins, based on the advice of the reclamation specialist, Diamond will apply fertilizer and possible soil amendments along with a recommended seed mixture. If needed, mulch will be applied and watering of the seed will be done.
- 5) Diamond will monitor the progress of the reclamation and will contact the COGCC and request final site inspection when an appropriate level is achieved.
