Comment:

****Please note that this Form 5A will correct the producing formations.****

Work occurred on the McDaniel Federal 1-4.5 well to repair the tubing.

A dual stage plunger system was set at 5017' on 11/06/2008. Attempted to remove dual stage plunger with wireline but was not able to latch on; possible hard sand on top of tools.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
