As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

Spill was aprox. 3-5 bbls, no surface water to recover. Affected area aprox. 1' x 15'. Lines were isolated, damaged line was dug up and repaired with a 3" electro fusion coupler, soil samples were taken and will be sent in for analysis. It appears to have been a small hole in the poly fuse. The affected area is approx. 10' from County Road 51. Livestock and nearest residence are approx. 1/2 mile away
