COGCC Comments

Comment	User	Date
Reclamation in process, however portions of the interim area contains sparse vegetation and/or exposed soil, and may require additional decompaction, seeding and stabilization to pass reclamation. Refer to photos in attached document. A vegetation transect will be conducted in a future growing season to evaluate compliance with reclamation standards.	trujilloam	01/15/2016
Operator response to this inspection should be provided to the COGCC in the comments section of a Form 4 Sundry notice.	trujilloam	01/15/2016
