Environmental	Water quality monitoring has not indicated any impact from this spill. Bio-remediation (MicroBlaze) has been applied to contaminated soils. Remaining potentially impacted soils are beneath currently operating infrastructure. No further active remediation or ongoing monitoring is required at this time, however spill will remain open until final decommissioning and removal of infrastructure has been completed, confirmation soil samples analyzed and found to be compliant with Table 910-1 standards.	1/19/2016 9:57:36 AM
