Waters of the State ☐ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

Lease Operator found water leaking from the above ground gathering line at the well head. For reference the spill occurred at the Costello 44-24 well site. The leak was isolated upon discovery. It is estimated that 5bbls of produced water were spilled. Most of the water went into the production pit on location and no water left the site. No State Waters were involved.
