**Form 2A COAs:**

Group	User	Comment	Date
OGLA	koepsear	Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to prevent a release of drilling, completion, produced fluids, or chemical products from migrating off of the oil and gas location.	01/14/2011
OGLA	koepsear	No portion of any pit that will be used to hold liquids shall be constructed on fill material, unless the pit and fill slope are designed and certified by a professional engineer, subject to review and approval by the director prior to construction of the pit. The construction and lining of the pit shall be supervised by a professional engineer or their agent.	01/14/2011
OGLA	koepsear	Due to the SARUCHE-ROMBO-ROCK OUTCROP COMPLEX the following will apply: Location is in a sensitive area because of potential for adverse impacts to ground water/surface water; therefore all pits will be lined.	01/14/2011
OGLA	koepsear	The site specific BMPS provided by XTO Energy for Erosion control and storm water management should be implemented immediately after pad construction.	01/13/2011
