Gentlemen,

COGCC has reviewed the Form 27 Site Investigation and Remediation Workplan submitted by Caerus Oil and Gas, following the transfer of the above mentioned Facility. A copy of the signed Form 27 is attached, which has been approved with the following condition:

- Ensure that the horizontal and vertical extent of impact to soil is delineated in subsequent sampling events.

Remediation #5643 has been closed, referencing Remediation #9491, in the COGIS database (document #200438980).

Please reference the new Remediation **#9491** and Facility ID **#444665** created for this tank battery on future correspondence.

Thank you,
Annie
