

Interim Reclamation Inspection

2/9/2016

Operator: Whiting Oil and Gas

Location ID: 425520

Weld County, CO

SWSE Section 18 T10N R57W

Aaron Trujillo

Reclamation Specialist

COGCC

02.09.2016 10:29

Figure 1: Photo taken from access road and location entrance, facing north.

Figure 2: Photo taken from access road southwest of location, facing east. Photo of location, interim area and stormwater controls.

Figure 3: Photo taken from access road southwest of location, facing east. Photo shows location and interim area.

Figure 4: Photo taken from southwest end of location, facing east. Photo of stormwater berm.

Figure 5: Photo taken from south end of location. Photo shows soil stockpile on project area, and what appears to be a tarp strewn next to soil stockpile.

Figure 6: Photo taken from south end of location. Photo shows soil stockpile on project area, and what appears to be a tarp strewn next to soil stockpile.

Figure 7: Photo taken from south end of location. Photo shows soil stockpile on project area, and what appears to be a tarp strewn next to soil stockpile.

Figure 8: Photo taken from southeast end of location, southwest perimeter of pit. Photo of project location.

Figure 9: Photo taken south end of pit location. Photo shows rill erosion occurring, leading off location.

Figure 10: Photo taken from southeast end of pit location, facing north. Photo shows interim and project area, and stormwater berm.

Figure 11: Photo taken from east end of pit location, facing west. Photo shows erosion occurring on pit containment berm.

02.09.2016 10:37

Figure 12: Photo taken from northeast end of pit location, facing south. Photo shows interim and project areas.

02.09.2016 10:38

Figure 13: Photo taken from northeast end of pit location, facing west. Photo shows interim and project areas.

Figure 14: Photo taken from northeast end of location, facing north. Photo of berm and vegetation. Vegetation dominated by undesirable weedy plant species such as Kochia and Russian thistle.

Figure 15: Photo taken from northeast end of interim area, facing east. Photo of exposed soil on berm. No evidence of perennial germination.

02.09.2016 10:39

Figure 16: Photo taken from berm on the northeast end of interim area, facing west. Photo shows exposed soil on berm. Minimal evidence of desirable perennial germination.

Figure 17: Photo taken from berm on the northeast end of interim area, facing southwest. Photo of erosion forming on berm.

Figure 18: Photo taken from berm on the north end of interim area. Photo shows vegetation and exposed soil.

Figure 19: Photo taken from northern end berm on interim area, facing south. Photo shows rill erosion occurring on berm.

Figure 20: Photo taken from northern end berm on interim area, facing south. Photo shows rill erosion occurring on berm.

Figure 21: Photo taken from northern end berm on interim area, facing north. Photo shows rill erosion occurring on berm.

Figure 22: Photo taken from berm on the northeast end of interim area, facing south. Photo shows interim and project areas.

Figure 23: Photo taken from berm on the northwest end of interim area, facing east. Photo shows exposed soil on berm. Minimal evidence of desirable perennial germination.

Figure 24: Photo taken from northwest end of interim area, facing east. Photo shows berm on north end of location. Vegetation dominated by undesirable weedy plant species such as Kochia and Russian thistle.

Figure 25: Photo taken from topsoil berm on the west end of interim area, facing south. Vegetation dominated by undesirable weedy plant species such as Kochia and Russian thistle.

02.09.2016 10:47

Figure 26: Photo taken from topsoil berm on the west end of interim area, facing south. Photo shows exposed soil on topsoil berm. Vegetation dominated by undesirable weedy plant species such as Kochia and Russian thistle.

Figure 27: Photo taken from topsoil berm on west end of project area. Photo shows soil stocpiles on project area.

Figure 28: Photo taken from northwest end of project area. Photo of erosion forming on berm.

Figure 29: Photo taken from northwest end of project area, facing north. Photo of erosion forming on berm.

Figure 30: Photo taken from west end of project area. Photo of containment berms.

Figure 31: Photo taken from northwest end of project area, facing west. Photo of soil stockpile on project area.

Figure 32: Photo taken from east end of project area, facing south. Photo of pumpjack. No sign at wellhead.

Figure 33: Photo taken from east end of project area, facing south. Photo of pumpjack. No sign at wellhead.
