Good morning, Doug,

Attached is a schematic showing how Newpek intends to control the vapor emissions on the Fauver #1-20 and #1-20H.

Thank you,

Tammy McNatt

Tammy,

Thank you for the schematic. From this it appears there will be one heater-treater and one VOC Combustor needed should the well produce. I'd like to add them to the Facilities section of the 2A. Do you concur?

Doug,

Yes, please add one heater treater and one VOC Combustor to the facilities section.

Thank you very much,

Tammy
