Comments:

WPX Energy Rocky Mountain, LLC is requesting to waive compliance with Rule 1003 for a portion of the GM 207-28 (Facility ID# 324185) located in the SWSE of Section 28 T6S R96W. The landowner has equipment stored on parts of the pad, that was previously reclaimed, that is no longer needed for WPX operations. The equipment was placed temporarily in order to be used on a construction project. However, construction halted and WPX is agreeable to allowing equipment to stay in place until construction can resume. The attached exhibit shows the area that WPX needs for active operations (reclaimed pad shown on attached exhibit). WPX is aware that we are still required to comply with Rule 1002. f related to stormwater management controls.

The agreement that WPX has entered into with the surface owner, attached, acknowledges that while this area can be used for the surface owner's personal equipment all active portions of the pad are still under the jurisdiction of COGCC. Also, the surface owner acknowledges that they may not impede ingress to or egress from the active oil and gas location or interfere with the safe conduct of oil and gas operations on the location.

WPX and the surface owner have also agreed that WPX will continue to include this area in our weed management activities which provides for annual monitoring and spraying of noxious weeds.
