All,

After a discussion with Scott Park, I will be requesting amended plats reflecting a reduced pad area, thereby removing the existing Lapp 13-33 and Lapp A24-30D wells from the area of disturbance. Once I receive the amended plats we will pass them along to Denver Permitting so they can re-submit the 2A as a new location instead of amending the existing location. I hope to receive the amended plats by the end of the week. Please let me know if you have any questions.

Thanks,

Cory Neighbors

Doug,

Will you be changing the current 2A from an existing to a new permit when I send the amended information?

Thanks Doug, appreciate your time.

Jan,

Yes that was what I told Scott I would do when Noble provided me with a revised Location Disturbance and surface disturbance acreages.

Doug

Attached is the revised Location Drawing. Please let me know if you need anything else.

Thank you.

Jan
